BUILDING MATERIALS

TO HOMEOWNERS, BUILDERS AND OUR FARM FRIENDS:

The prospective Home Builder may ask, "Is this a good time to build?"

Yes, Homebuilders in 1952 can purchase building materials at lower costs as we have made many price reductions in this catalog. We believe much of the talk of shortages and rationing is grossly exaggerated, and materials are now in good supply. Here in southern Maine we are fortunate in having good labor available at very fair prices. Thus, the principal factors to be considered in the building of a new home, or for any type of remodeling work, are now favorable for your planned construction this year.

We have several plan books available covering homes, farm buildings, camps, cottages, garages, and remodeling. Blueprints are available and we will gladly assist with your building plans. You are invited to visit our display and salesroom at 187 Brighton Avenue, Portland, or just phone Portland 2-1965, if you would like to have our salesman call.

Our offices are conveniently located at 187 Brighton Avenue, Portland, phone Portland 2-1965; 35 Gertrude Avenue, Biddeford, c/o Fred Skillings, phone 4-4431;

Sincerely,

L. C. Andrew.

CATALOGUE PRICES

The prices shown in this catalogue are the lowest market prices at the time it went to press, but there is no way for us to know whether or not the manufacturers' prices will change. Therefore, all prices shown are "Subject to Change Without Notice." Should the market lower, we guarantee you will have the advantage of the saving, and if it should strengthen we will necessarily have to increase our prices.

FOR YOUR ENTERTAINMENT

If you enjoy good music may we suggest our "Texaco" Broadcast from the Metropolitan Opera each Saturday from 3:30 to 5:30 P. M. during the winter months.

ASPHALT SHINGLES

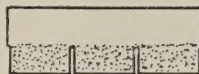

DURABILITY AND STRENGTH

where the weather strikes with

12-INCH THICK BUTT SHINGLE

Per Bdl. \$2.15 Per Sq. \$6.45
215 lbs. per Sq. Sq. covers 100'

YOUR BEST BUY. Extra protection where the weather strikes. Colors: Gray Green, Evergreen, Red, Tile Red, Blue Black, Ocean Blend, Blue Blend, Slate Blend, Redfield, and Greenfield.

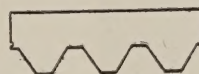

TEXACO

We suggest to Farmers and Owners of Extensive Buildings that they use Standard Colors . . . Gray Green, Blue Black or Red. These Colors are always available. Other colors likely to change.

HEXAGONAL DESIGN SHINGLE

This design is well adapted to certain types of architecture. It is suitable for any roof that slopes enough to drain well. It is easy and quick to lay on a new roof or over the old shingles. The rich, natural slate colors in this shingle snaps any home out of the dullness of ordinary roofs. 2 Bdl. cover

100 square feet.

Standard Size 11 1/3 x 36 with 2" headlap.

167 lbs. per Sq.
Per Bdl. \$2.65 Per Sq. \$5.30

Colors: Gray Green, Evergreen, Blue Black, Red, Tile Red, Redfield and Greenfield. Ideal for cottage and garage coverage.

GIANT ROOFING SHINGLES 12x16"

A life-time roof. Available in the following colors:

Green, Red and Blue Black

Per Bdl. \$2.65 Per Sq. \$10.60
325 lbs. per Sq.

FIGURING SHINGLES FOR ROOF

Measure length of building including roof projection. Measure width of building. Multiply overall length by 2/3 of width. Example: Building 28' with roof projecting 1' each end—30' long, width of building 24', use 2/3 or 16' as rafter length. Multiply 30x16 or 480' per roof side. With two sides to cover 960', or 10 Sqs. required.

CONSIDER THESE BASIC FACTS: First—Asphalt is the greatest weather and waterproof substance the world has ever known! Second—the purest asphalt in the world is obtained from crude petroleum. Third—The Texas Company . . . manufacturer of over 350 industrial petroleum products . . . is one of the largest producers of Asphalt—in the World! And Texaco THICK BUTTS are, by weight, nearly one-half Asphalt!

TEXACO Roll Roofings

MINERAL SURFACED

Heavy Felt with coating of slate granules. Colors: Blue, Black, Gray Green, Evergreen, Red, and Tile Red.

90 lb. 36" wide \$3.00
110 lb. 19" wide 5.00

Above items with selvage edge.

TEXACO SMOOTH ROOFING

ROOFING BRUSHES

White Roofing Brush, 2 1/2" x 7"

\$.50

L. C. Andrew, South Windham, Maine

ASBESTOS AND WOOD SHINGLES

"GLATEX"

This new exclusive "GLATEX" process seals the siding against water and dirt penetration. It is baked and fused into the core of the siding . . . it is as permanent as the shingle itself.

"GLATEX" helps keep the side walls factory fresh and clean. This new process is considered the greatest improvement since the introduction of asbestos shingles. Textured Surface.

Size 12"x27", Wt. 186 lbs.—WHITE
Zinc Corner Bead for above

Per. Sq.
\$15.00
.50

5 ft.

Asphalt Joint Strips and Nails for bottom of shingles included.

CAREYSTONE Asbestos Board — $\frac{3}{16}$ "x4'x8' — per sheet \$3.20

STAINED SHINGLES

GENUINE RED CEDAR

Low initial cost and low upkeep. Dependable protection against all elements in any climate. Insure against damage caused by leakage. Saves on fuel bills. Increases property value. An investment that will pay dividends on new or old homes.

18" Perfections (Bundle covers 35 sq. ft. applied $7\frac{1}{2}$ " to the weather).
Brown and Red \$7.25 Bdl. Gray and White \$7.75 Bdl.

18" Leaders (Bundle covers 50 sq. ft. applied 14") Double coursing with shadow effect. Gray \$8.25 Bdl.

(Approximate cost of \$20.00 per 100 ft. coverage.)

18" Natural Shingles \$4.00 Bdl., or 16", \$3.50 Bdl.

DOOR HARDWARE

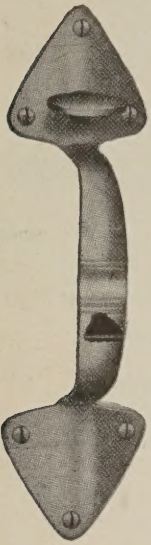

CAST BRASS or BRONZE and CAST RUSSWIN METAL

Since 1839, Russell & Erwin Mfg. Company has rendered constructive service in the Builders' Hardware field. Its aim has been to improve its products and its methods by constant experimentation and adoption of the latest scientific and industrial developments.

Always its object has been to make a worthy product that would find a useful place in the community and prove of benefit to the public.

The name Russwin thus stands as a symbol of fine quality — a guide to the consumer in making a needed purchase — a constant challenge to its sponsors to strive for even higher standards.

Any product bearing the trade-mark RUSSWIN is designed to give the utmost in long service and satisfaction.

FOR 100 YEARS, LUCAS PAINTS HAVE BEEN MADE TO THE HIGHEST STANDARDS. LUCAS, IN FACT, PIONEERED IN PRODUCING AMERICA'S FIRST READY-MIXED, PURE LINSEED-OIL PAINT. Ever since those days, Lucas chemists have been working to bring America's homes better paint for every use. Now, as always, each Lucas product is as fine as quality ingredients, skill and experience can make it.

LUCAS TG HOUSE PAINT is the most durable and economical, as well as the most beautiful house paint that can be made. Into it go the highest quality ingredients, scientifically formulated in just the right proportions to provide maximum protection for your home. Lucas TG is truly a "weather-resistant" paint. It defies the elements, fuses to the surface, has remarkable hiding power, lasts and looks lovely longer. Lucas may cost slightly more per gallon than ordinary paint but it saves many dollars through outstanding service.

HIGHEST GRADE PAINT NOW AVAILABLE at reasonable prices:

JOINT FILLER

Sheetrock Finisher is a specially prepared material. When mixed with water, the Finisher forms a cement, which is easily, quickly and economically applied. Sufficient for 500 sq. ft. Sheetrock.

Price per 5 lb. Box — **\$.50**

WALLBOARDS

SHEETROCK

Our fastest selling Board. 70% of our new houses are using this Sheetrock. Excellent for remodeling.

WALLBOARD

Low price and rapid handling provide substantial interiors within reach of all. Sheetrock is easy to apply,—is nailed, sawed, and fitted with the ease of lumber. Boards are light enough for easy handling but strong enough to provide an enduring wall finish. Surface is Ivory finish. $\frac{3}{8}$ " thick, 48" wide, 7, 8, 9, 10, and 12' long. Per sq. ft. **\$.05**

"PREDECORATED" SHEETROCK

Finished in Knotty Pine, Mahogany, and Walnut, $\frac{3}{8}$ "x4'x8'

Per sq. ft. **\$.095**

PERF-A-TAPE

When used with our Recessed Edge Sheetrock gives smooth finished surface.

Sheetrock joint reinforcement puts an end to wallboard joint problems. Perf-A-Tape cement is buttered into the joint channel formed by Sheetrock recessed edges and the reinforcing Perf-A-Tape strip is buried in the cement to make the joint stronger than the board itself.

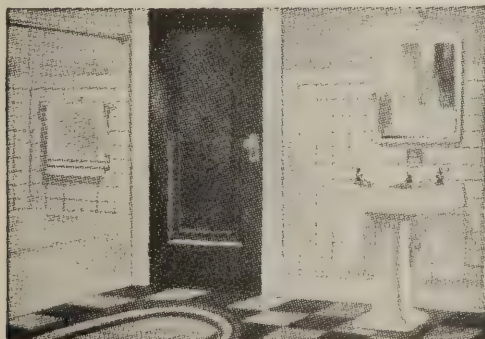

For Sq. Ft. Sheetrock
Treats Joints

60' Box	250'	Per box	..\$1.50
250' Box	1000'	Per box	4.25

HARDBOARD

It is science's strongest, smoothest, grainless board. It is strong, light, splinterless, easy to handle, will not crack or swell and is very attractive. It is made of wood fibres pressed under terrific pressure, making it extremely dense, rigid and sturdy. The Treated is water and acid proof.

Sheets $\frac{1}{8}$ " x 4 x 12' — **\$.07 ft.** Treated — **\$.09 ft.**

HARDBOARD TILE

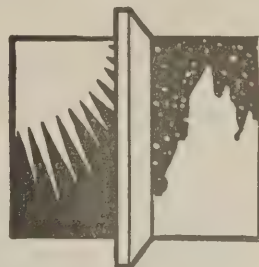

Made of Treated Hardboard and is marked off in 4" squares. Just the thing to modernize your dark, gloomy kitchen and bathroom and make them more cheery. Used in hallways, hospitals, restaurants, meat markets, public buildings, etc. Easy to install. Saws and nails like lumber. Temprtile can be easily decorated in any of the glorious colors so popular today.

$\frac{1}{8}$ " thick, 4x12' sheets Per sq. ft. **\$.10**

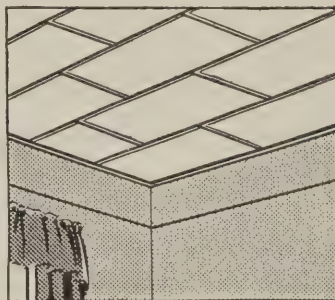

WEATHERWOOD INSULATING BOARD

Suitable for plain walls. Ivory finish $\frac{1}{2}$ " x 48" wide by 7, 8, 9, 10, and 12' lengths . . .

Per sq. ft. **\$.06**

INSULATING TILE BOARD

Excellent for ceilings. Comes in 12"x24" scored to make 12"x12" Tile. Also in 16"x32" scored to make 16"x16" or 16"x32" as preferred. All $\frac{1}{2}$ " thick. Color Ivory.

No painting required. All edges are tongue and grooved with an ogee bevel. Rigid, strong, high in insulation value and noise absorbing medium, very pleasing in appearance and very popular for both old and new work.

$\frac{1}{2}$ x12"x24" (40' to Bdl.) Ivory—Per ft.	\$.09
$\frac{1}{2}$ x16"x16" (64' to Bdl.) Ivory—Per ft.	.09
$\frac{1}{2}$ x16"x32" (64' to Bdl.) Ivory—Per ft.	.085

INSULATING PLANK

Used for insulating and decoration of side walls. Stocked in Blendtex color (variegated tan) in $\frac{1}{2}$ " thick, 8, 10 and 12' width, and in 8' lengths. Painting or papering unnecessary when planking is used.

Per ft. **\$.09**

Marlite brings a beauty and charm that captivates everyone. No matter what decorative scheme you have in mind, Marlite colors and patterns will enable you to achieve it.

The large sheets of Marlite are easily cut to the proper size pieces with regular carpenter tools. These pieces can be quickly fitted and installed by any good carpenter. Marlite is applied over plaster, insulation board, wall board or walls of any similar material that are straight and dry.

The large wall-size panels of Marlite make modernizing economical . . . for the average wall can be covered from corner to corner with one sheet. All colors and patterns of Marlite are sold in large sheets 4' wide and in lengths ranging from 4' to 12'.

DeLuxe **\$.40 Per Sq. Ft.**

36" width rails	12.00 Per pair

All wrought iron. Easy to install.

OUR BEST SELLER

DESIGN NO. 4152

FLOOR PLAN OF DESIGN NO. 4152

How small can a good house be? This sparkling little home is the answer! Families with modest budgets will be ever grateful to the designer who skilfully planned this 4-room home. Comfortable quarters are obtained through the maximum use of all available space. Economical construction is achieved by specifying standard building materials. Note the wide roof extension; the large window area; the simple flush door. Wide bevel siding or shingles are recommended for exterior walls. The attic is ventilated with louvres which assure a cooler house in summer.

All materials for this plan for only \$2490.00.

Material cost includes mason supplies, all lumber for framing and finishing, Oak floors, Sheetrock walls, Perf-A-Tape Joint System, insulation, millwork, doors, windows, roofing, hardware, and paint.

Estimated completed cost \$6400.00.

It is sound economy and a wise investment to give your car the protection a well constructed garage affords.

In choosing your garage bear in mind the appearance of your home and select a plan which harmonizes with its architecture.

Also consider a breezeway. The present day trend is toward the wide, rambling effect, and if your lot is large enough to accommodate it, a breezeway connecting the house and garage is a most economical way to achieve it.

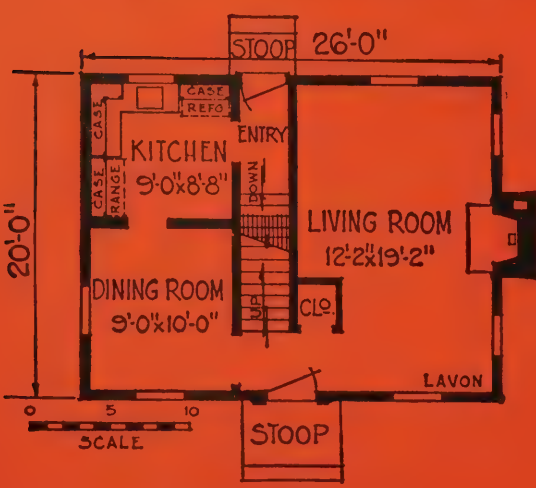

This gable roof plan is 12' wide, 20' long. Our price for all the materials \$278.40, and this can be financed on our Easy Payment Plan. Note modern folding overhead doors.

ARCHITECT DESIGNED SMALL HOMES

The Lavon

6 Rooms

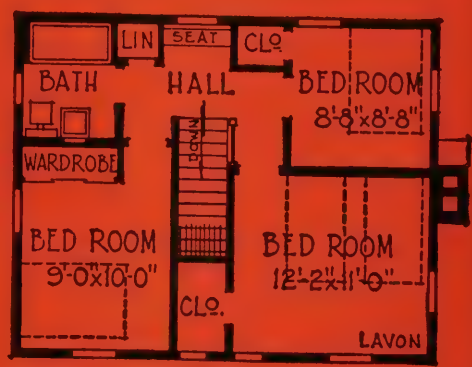

This 2-story "Garrison Type Colonial" home features the use of wood shingles for side walls and roof. This house, even though its overall dimensions are only 20 ft. x 26 ft., has a very spacious living room, a dining room and 3 bedrooms. The efficient kitchen contains all the latest appointments with equipment planned on the popular "L" arrangement. Note the abundance of closet space, including a built-in linen closet, a window seat, and built-in wardrobe on the second floor. The centrally located hall provides convenient access to all upstairs rooms.

FIRST FLOOR PLAN

All building materials for this Plan \$3097.00, which includes mason supplies, all lumber for framing and finishing, Oak floors, Sheetrock walls, insulation, millwork, doors, windows, roofing, hardware and paint.

Estimated completed cost \$9700.00.

SECOND FLOOR PLAN

ARCHITECT DESIGNED SMALL HOMES

"The Palsen" as shown in our latest Plan Book.

A cozy home of 4 good sized rooms on first floor with additional space for bedrooms on the second floor. Stairways well located.

The first floor plan shows well planned home.

All materials for completing exterior and first floor, with stairway to second floor for only \$2550.00. Estimated completed cost of \$6750.00.

Material cost includes mason supplies, all lumber for framing and finishing, oak floors, sheetrock walls, Perf-A-Tape system, insulation, millwork, doors, windows, roofing, hardware and paint.

Many House Models and Floor Plans are on display at our 187 Brighton Avenue, Portland, Sales Office. A visit will well repay you, as our representatives will be glad to give you cost information, and also show you the display of Kitchen Cabinets, Corner Cupboards, Doors, and other Building Material items.

SMALL HOMES

PLAN 5127

The floor plan below is well arranged for the small family. Modern in design for a maximum of good living. Interior of the house is skilfully arranged with spacious living room 16' x 12', with extension for dinette 7' x 8' that is shielded from front door by vestibule wall.

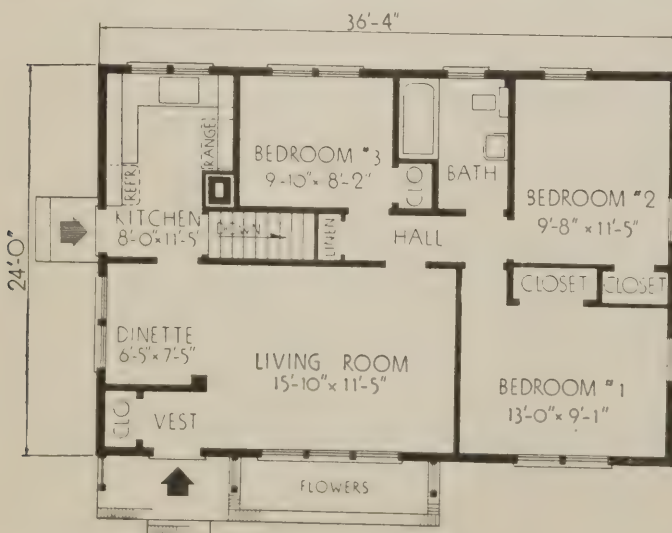

Note you have three good sized bedrooms all conveniently located on first floor. The kitchen is "U" shaped and designed for efficiency and pleasant working hours.

This is one of our best selling plans. Well designed for New England use. The horizontal type windows add to the architectural balance of this long, low, and modern plan. We now carry these horizontal windows in stock, as they are very popular and practical.

Window areas are generous and well placed and of the horizontal type glass design. Good circulation of air is assured.

Note doorways to hall and kitchen and side entry. Long walls of living room are excellent for furniture only \$3100.00. Estimated completed cost \$7750.00.

Our 1952 edition "ANDREW'S HOMES OF MODERATE COST" shows many attractive and practical low cost Ranch Type homes.

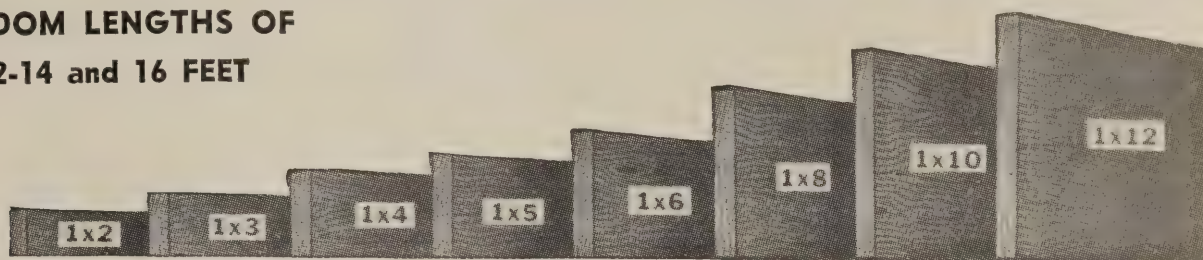

Book of Plans \$1.00.

Blueprints for all House Plans \$12.50.

WHITE PINE LUMBER

Our White Pine comes from Maine and is genuine White Pine. There are several woods that are sold as White Pine, such as Ponderosa, Western or Hard Pine, but they are not the **Genuine** White Pine and will not last as long, finish as good, or hold paint as well. We recommend this lumber as being the best for any purposes where the surface is to be painted. Carried in 3 grades. Our stock in best grades is now kiln dried, assuring you of shrinkage free lumber.

FINISHING LUMBER

Kiln Dried for Interior Finish

SOFT TEXTURED WHITE PINE

We can supply Feather Edge Pattern Interior window and door trim kiln dried.

	Lin. Ft.
White Pine $\frac{3}{4} \times 3\frac{1}{2}"$	\$.12
Plain Casing, Pine or Fir $\frac{3}{4} \times 3\frac{1}{2}"$.10
Plain Casing, Fir $\frac{5}{8} \times 3\frac{1}{2}"$.09
Mouldings to match see Page 22.	

ANDREW'S "D" SELECT KILN DRIED

This is an excellent grade and the kind most commonly used for house trim. 6 to 16' lengths dressed 4 sides.

BEVEL SIDING (Clapbds.)

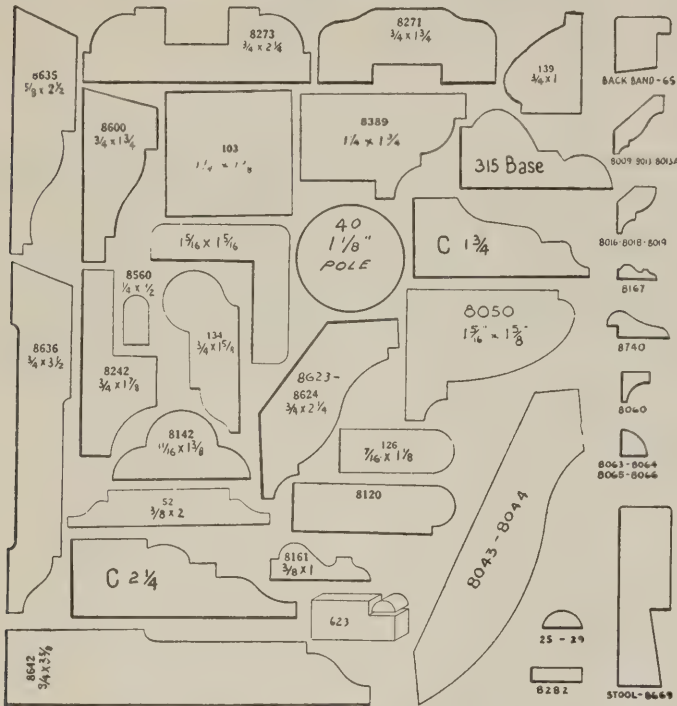

RED CEDAR (10 Pcs. to Bdl.)

We buy our sidings in carloads and are therefore able to quote these real low prices. Experience has taught us that Red Cedar is the best lumber for siding. It is long straight grained, light weight, resists decay and is economical to paint.

RILCO Laminated Wood RAFTER ARCHES

"Engineered and Factory Built for Many Types of Farm Buildings"

We can deliver to your farm, ready for immediate erection, many types of Rilco Laminated Wood Rafter Arches for better farm buildings. Rilco Rafter Arches are continuous framing members. They combine sidewall and roof into a single framing unit from foundation to roof ridge assuring a stronger, more wind resistant building. Rilco Laminated Wood members are used in Army and Navy airplane hangars, drill halls, factories and storage buildings.

We have fabricated and set up ready to deliver the Rilco Hog and Poultry houses.

WHITE PINE KILN DRIED OR CLEAR DOUGLAS FIR TRIM

Using 3/4" x 3 1/2" Casing, side, top, apron, and window band trim.

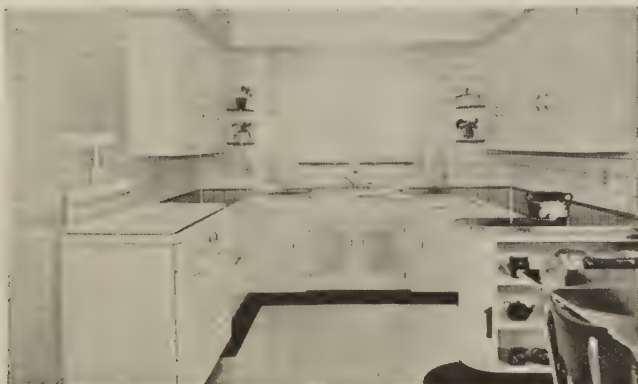

24 x 24" window opening per set \$3.00

Up to 2/8 x 6/8 door opening per set 1.75

Can furnish 5/8" x 3 1/2" Fir Casing, saving \$.15 per set.

Can also furnish Feather Edge Pattern at \$.25 per set additional.

MODERNIZE YOUR KITCHEN . . .

Why not let us help plan your new kitchen. Our Plan Service Department will be glad to make suggestions and estimate the cost. We have Built-In Drawer Sets, Stock Cupboard Doors, and Built-In Ironing Boards. You will be amazed to learn what can be done with the expenditure of very little money. Our Tile Board for the walls, decorated with bright colors, will add to its attractiveness. Write for our folder on Modern Kitchens.

Vertical Wall Detail

We specialize in
CEDARSEAL LOG CABIN SIDING

both horizontal and vertical types.

See rear cover

Send for our . . .

LOG CABIN BOOKLET

Horizontal Wall Detail

See Page 16

The logs, as illustrated, are selected, carefully peeled, split, planed one side, and both edges grooved for splines.

They may be used either horizontally or vertically. When used horizontally the edges are bevelled to give perfect protection against the weather. In using the vertical type of wall the studs are eliminated.

Cabins and camps made of Maine White Cedar Logs can be erected at a moderate construction cost.

Cedar Log Doors and Trim for Log Cabins carried in stock.

PAY FOR THEMSELVES IN ONLY THREE YEARS

Our prices are always low on storm sash. They are made full size width and 1 1/2" longer than necessary to fit standard frames. This allows for fitting. All sash are 1 1/8" thick. By equipping your home with storm sash you will be a lot more comfortable and you will save approximately one-third of your fuel bill, as the heat lost through glass windows, not protected with sash, is very large.

Note: In 4V over 1 column, windows under 24" wide made 3V over 1; over 30" wide are made 5V over 1.

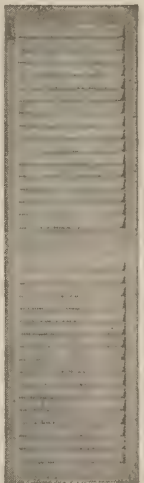

In 6 over 1 column, windows under 24" wide are made 4 over 1; over 30" wide are made 8 over 1.

Our windows are made of White or Ponderosa Pine 1 $\frac{3}{8}$ " finish thickness. All window frames of State of Maine White Pine. All windows are glazed, prefitted and toxic treated. Overall size indicates extreme width and length. Glass bottom sash indicates size of glass.

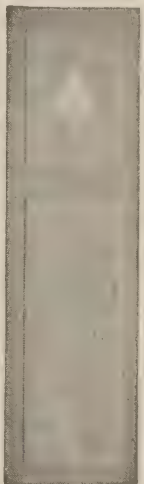

If windows must be crated add 20c per window.

Frames prefitted and ready to nail together; the jambs, of selected pine are equipped with pulleys. The casings and stools are made of native pine. We furnish 4 $\frac{1}{2}$ " width jambs on window frames. * Deduct \$1.00 if Pulleys Not Required.

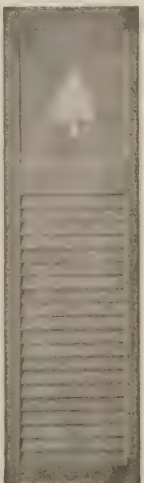

Blinds and Shutters add beauty to the home, and give that finished touch. See lower left corner page 30 for available cutouts. All our Blinds and Shutters are toxic treated.

Excellent for linoleum base.

HARDWOOD FLOORING

Good supply from best producers of quality K. D. flooring. Standard lengths all finished $\frac{3}{4} \times 2\frac{1}{4}$ " face. Available in Birch, Maple, and Oak.

Grade	Birch	Maple	Oak
Clear or 1st Grade		\$280.00	\$250.00
Select or 2nd Grade	\$240.00	240.00	240.00
No. 1 Com. or 3rd Grade	180.00	200.00	190.00
Select 18" Shorts		170.00	

HOW TO ARRIVE AT THE AMOUNT OF FLOORING THAT YOU NEED

Multiply the length of the room by the width, which will give you the square feet of surface to be covered. Add the percentage shown below to your surface feet to determine the amount of board feet which you will require.

(1x3) $1\frac{3}{8} \times 2\frac{1}{4}$ " add $33\frac{1}{3}\%$

(1x4) $1\frac{3}{8} \times 3\frac{1}{4}$ " add 25%

For example:

A room 10'x10' laid with 1x3" flooring requires $133\frac{1}{3}$ board feet.

We recommend Minwax Floor Finish. Easy to apply and keeps floor in good condition. See Page 12. Send for color card.

For natural gloss finish our Lucas Floor Sealer is excellent. 1 gallon covers average floor. \$3.25 per gal.

Suggest our Hardened Cut Floor nails for applying flooring. \$.20 per lb.

FOR COLORFUL WALKS USE IRREGULAR FLAGGING

For permanent, beautiful walks, at low cost, use Irregular Flagging which may be laid by two methods.

1. Set in concrete with close joints.
2. Imbedded in ground — spaced wide, allowing grass to grow between stones.

Irregular Flagging is made up of irregular pieces $\frac{3}{4}$ " to 1" thick. Colors mixed, 10% Red, 35% Purple, 40% Green, and 15% Black and Blue Black.

Price \$.25 sq. ft.

SEPTIC TANKS

An economical and efficient disposal service. Heavy gauge, Asphalt treated steel. All seams are electrically welded. Removable flanged cover. Openings take 4" Tile or Iron Pipe. Heavy 14 gauge Asphalt treated steel.

400 Gal. 52x48"

INSULATED SIDING

BUILD AND REMODEL WITH MODERN INSULATED SIDING

The insulated Siding that pays for itself.

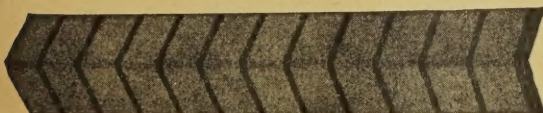

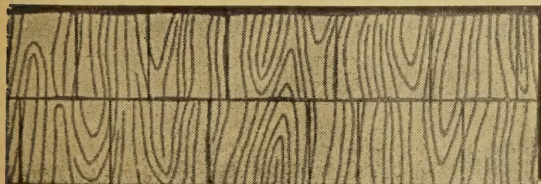

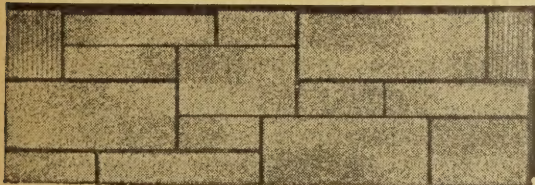

Saves on fuel

Saves on repairs

Saves on painting

An exterior sidewall material. It has all the advantages of insulation and permanency. Can be applied over any type frame wall. Comes complete with angle corners and block course. Economical in cost, beauty of expensive face brick with texture and design. Also available in stone and Cedar designs, in a variety of colors.

Assures you of year around comfort with a cooler house in summer, and a warmer house in winter. Pays for itself and proves itself a wise investment for the homeowner.

Brick Design available in Red, Buff, and Colonial Blend with corners and Combination Course to match.

Insulated Siding goes right over any sidewall material—over old walls of clapboards, sheathing, or shingles.

Can be applied any time of year.

Insulated Siding never needs painting.

Stone Design in Pilgrim White.

These insulated sidings come in a variety of designs and colors as shown. Whatever the type of building, whether home, industrial building, store, hotel, or apartment house. A covering of well insulated siding gives you an attractive modern building.

Cedar Design in White, Green, and Brown.

Size sheets $13\frac{7}{8}$ " x $43\frac{1}{8}$ ". Packed 12 pieces to the carton. Two cartons cover 100 ft. Weight 170 lbs. to the square. Your cost \$14.75 per square.

Use 6D Painted Black nails. Two lbs. required to the square. \$.20 per lb.

Average job requires \$2.00 can of compound.

The average house requires 15 squares, and your cost of Insulated Siding only \$220.00. Can be financed on our easy payment plan for only \$8.25 per month.

L. C. Andrew, South Windham, Maine

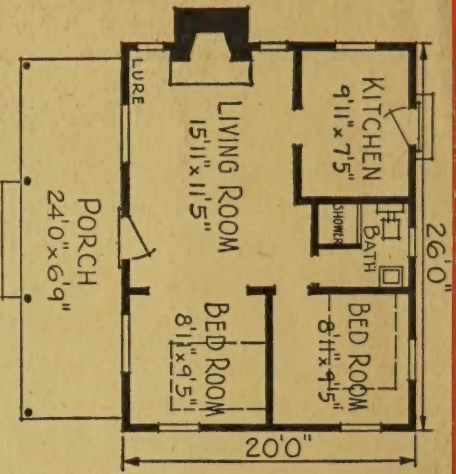

THE LURE

A neat log cabin which should prove very popular as a summer home for the small family.

This plan without porch would cost \$998.00 for the materials only, using our Cedar Log Cabin Siding, as shown on Page 23.

Many more plans to choose from. Send for our Camp Plan Book.

Log cabin porch added for \$86.65 extra.

This "LURE" Plan using 12" Pine vertical and Battens outside at \$763. (Material cost.) For Porch Materials add \$86.65.
